

What's cooking?

Students of Class 7 of PSBB T. Nagar were invited to INKO Centre, Mandaveli on 27.11.2018 to learn about Korean/Japanese traditional dishes.

True to the saying “The way to a man’s heart is through his stomach”, students were deeply touched by the hospitality, warmth and friendliness of the Korean and Japanese people. The carefully cooked, delicious vegetarian dishes served to the children were no doubt an enjoyable way to learn about their culture.

Dressed in their traditional attire and playing the Janggu – Korean drums, the ladies made the students feel at home or rather feel at Korea, the Land of the Morning Calm. They explained the method of cooking the traditional dishes- Japchae stir fried noodles, sticky rice dumplings etc., demonstrated the usage of chopsticks and insisted that students use chop sticks to eat their food because “In Korea do as Koreans do”!

Next the ladies dressed in Kimono- the traditional clothes of Japan, explained the summer and winter wear in Japan and also spoke about their traditional food Sushi and a sweet dish.

Soon after the explanations, they served food to the students with great warmth and happiness.

Students were also invited to try their hand at beating the Korean drums that had a unique rhythm.

Overwhelmed by their experience, the students of PSBB handed over “Thank you notes” to show their gratitude and love as well as presented them with a small gift.

This visit was indeed a memorable one as it involved not only the learning of traditional cooking of Korea/Japan but also forged the bond of cultural understanding- A Perfect dish indeed!
