

WALK DOWN GRAMMAR LANE

Students of class 2 of PSBB T.Nagar took part in a project on grammar topics on 29/3/19. The objective was to help students revisit the grammar concepts in a fun way.

The concepts covered were- Nouns-Number, adjectives, helping verbs, conjunctions, homophones, prepositions, pronouns and compound words. Students presented them in the form of catchy, foot tapping songs, attractive informative posters, interesting, application based activities and creative hands-on table top models.

The walk down this grammar way served to hone the skills of the students, boosted their confidence levels and improved their reasoning as they attempted the grammar activities excitedly. Similar exercises put up on the DTS gave scope for ample practice "Practice makes one perfect".
