

KG Children Explore Math Around Us

The children of KG presented a programme titled 'Math Around Me' as part of KG day celebrations on 5th April 2019 at Shri YGP Auditorium. Through this programme, the importance of numbers in everyday life was highlighted by way of a skit, song and dance.

The two clowns 'Sasa and Sini' kept drawing the attention of the audience whenever there was a mention of terms related to Math. The enthusiastic response from the audience during the recap session proved that the learning outcome was achieved. The Vice Principal lauded the efforts of students and teachers for staging yet another spectacular show.
