

Students make an “Impact”

The HOST Impact Challenge (Hands-On Science Tournament) was thrown open to students of classes 6 to 9 to come out with innovative ideas to conserve water, which is the critical need of the hour. Students had to make a short video and explain their ideas.

In this challenge, the ideas of Ashwin Krishna Hari of 7B and Simran Keertipathi of 8B of PSBB T.Nagar were selected amongst several city school students who had participated. They were honoured at the HOST valedictory function held at Velammal International School, Ponneri on 28th July 2019.

Ashwin programmed a game called ‘Help Splash’, where the player must help a fish named Splash by correctly matching the cards depicting ways to save water.

Simran designed a ‘Smart Tap’ that will control the amount of flow of water and time of flow based on the option selected.
