

# ASTOUNDING DELINEATIONS

## MENACES TO BIODIVERSITY & MEANS TO CONSERVE

*“Mother Nature satisfies every man’s need, not every man’s greed”*

The programme commenced with this bold proverb, it was the beginning of the 2nd Virtual GA of PSBB SIRUSERI - “THE VIRTUAL ART BANQUET”. Posters were designed and presented by the ‘Picasso’s of PSBB’ very creatively.. The 22nd of May is a day dedicated to raising global awareness about the importance of protecting biological resources and global biodiversity.

The biggest threats to Mother Nature is we, humans. The main factors of threat are: pollution, poaching and exploiting the natural resources, that result in climate change, melting of glaciers and global warming. It is our duty as responsible citizens to take various measures to protect our ebullient ecosystem.

The programme was divided into two parts showcasing the Senior and Junior artists. The Seniors emphasized on the “Threats” to biodiversity while the Juniors on the “Methods of Conservation” of nature such as the 3R’s- Reuse, Reduce and Recycle and the rich flora and fauna of the Himalayas. Each artist briefly described their creative expressions as a video clip which was compiled by our technical expert Gowsigan Periasamy of class XII.

The Art Banquet was presented through zoom on the 10th July and was viewed by the students of class IX and X along with their teachers. It was indeed a feast for the eyes! The interactive discussion of the concepts conveyed in the colorful display marked the end of this informative as well as art integrated GA.

*“Nurture nature, save the future!”*
