G.A.- Celebration of Talent - Class 7

Today's G.A was a diverse and entertaining event. Students were undeterred by the fact that their acts were to be done from home, and took full advantage of the opportunity to showcase their talents in music, dance and cooking.

First was Rajdeep with his keyboard and the song 'Ham Honge Kamyab,' which translates to - 'We will Succeed', an uplifting song with remarkable relevance during these troubled times.

Second was Sampriti with his mouth-watering home-made chocolate cake. A delicious dessert made from easily available ingredients. This dessert will definitely be in demand by his friends at future festivals and on special occasions.

Next came Sanjana with her imaginative and creative poem- 'The Mythical World,' a poem that led listeners to a world of adventure populated by dragons, unicorns, fairies and merfolk.

Sanketh graced the listeners with a melodious rendition of classic bhajans, apt for the occasion of Navaratri.

Shiv Krishna came next with his magic tricks galore, using a mixture of skilful sleight-of-hand and science to mystify, fascinate and educate his captive audience.

The programme concluded with Subhakarini showing viewers how to make yummy French Fries, from scratch, in the comfort of their homes. She cut the potatoes, put them in boiling water, and then fried them in hot oil to make mouth-watering French Fries.

With that, the G.A came to an end, leaving all hungry for more!
