

## SCIENTIFIC CRAVINGS

"The world is but a canvas to imagination" ~ Henry David Thoreau

Mr. A.K. Samban, Former Principal of PSBB and a passionate Science Teacher, much adored by his students, brought life to Science classes through real-life examples.

In recognition, the "A.K. SAMBAN AWARD" for Creativity in Science had been instituted and students are being recognized for their innovative ideas. On the 15th of April 2021, unmindful of the pandemic battle, participants had gathered 'ONLINE', a total of 18 students - 8 from the junior category, VI to VIII and 10 from the senior category, IX to XI. Each student was given a time of 3 minutes to explain his/her respective project either with the help of a video clipping or with a PPT. After their presentations, they were questioned based on their projects by both the judges.

Our scholarly alumni Vishruth and Arvindh Rameshwar were on the panel of judges.

The students, all having done a brilliant job surely deserved all the appreciation they received from the judges. They answered the questions posed to them with quick-wit and never hesitated to try their best and that is what made this event a huge success.
